

## **ATTENTION HOSPITAL PROVIDERS**

### **IMPORTANT NOTICE**

#### ***Hospital e-PRECERT Provider Webinar Announcement***

---

Louisiana Medicaid is pleased to announce the implementation of e-PRECERT, a web-based tool for requesting inpatient hospital pre-certifications.

The ability to request pre-certifications on-line will allow providers to submit these requests more efficiently and track requests to completion. DHH is currently testing this application which is tentatively scheduled to be released to the hospital provider community for use on Monday, December 13, 2010.

The following on-line webinar training presentations concerning the implementation of this application for Louisiana Medicaid pre-certification requests are scheduled.

Hospital providers are strongly encouraged to participate in one of the sessions below. The information presented is appropriate for utilization review staff, administrative staff, and billing personnel.

Please attend only one session as they are all identical and registration per session is limited.

**To register for the Webinar please click on the session below that you would like to attend.**
