*****Announcing*****

2006 Unisys/Louisiana Medicaid Provider Workshops

*

Following is the schedule for the 2006 Spring Unisys Provider Workshops. Please carefully review the schedule to see which programs are included at each location as program offerings vary by city.

The annual Unisys/Louisiana Medicaid Provider Workshops focus on presenting vital policy and billing information and addressing questions relating to recent policy and procedure changes. Our training format separates basic information from specific program information.

All **Basic** workshop sessions will be identical in content and will only be presented once in each location **and will not be repeated in specific program workshops**. The **Basic** Medicaid information workshops will cover general Medicaid policy such as standards for participation, recipient eligibility/ID cards, third party liability, how to obtain assistance from Unisys, general Unisys website information, etc. (A separate session will be held to present all web applications.)

NOTE: We encourage all providers who have never attended a Basic workshop, and are new to billing Louisiana Medicaid OR those providers who have questions concerning basic Medicaid policy to attend this workshop.

New this year is the **LA Medicaid Web Applications** workshop. With the exception of e-RA, all LA Medicaid Web Applications will be covered in this separate workshop. DHH and Unisys encourage providers to begin using these available web applications as we move toward providing LA Medicaid data electronically.

CommunityCARE will be covered in separate **CommunityCARE** workshops. These workshops will cover all aspects of the CommunityCARE Program. These workshops are not restricted to Primary Care Providers and all Medicaid Providers are encouraged to attend. **CommunityCARE** will not be discussed in detail in any other workshops.

Workshop Registration:

- Due to space limitations in all workshops, please limit attendees to two (2) persons per provider.
- Attendees should arrive 15 - 20 minutes early to register
- Each attendee must register individually supplying their provider name and Medicaid ID number or the provider name and Medicaid ID number of the provider they are representing
- Providers are required to have a valid Medicaid provider ID number for each specific program workshop attended

Medicaid Programs to be Presented at the Workshops
