

Attention Providers
2016 HCPCS Claims Recycle/Fee Schedule Update

Louisiana Medicaid fee-for-service (FFS) claims containing new 2016 Healthcare Common Procedure Coding System (HCPCS) or Current Procedural Terminology (CPT) codes that were processed from January 1, 2016 through February 23, 2016 will be recycled. This recycle includes claims that previously denied because the new 2016 codes were billed prior to their addition to the claims processing system, as well as new 2016 codes that processed prior to the updates made to the "ClaimCheck" editing product.

Providers can expect to see the recycle results on the remittance advice of April 05, 2016. No action is required by providers. The claims included are Professional Services, Radiology and Laboratory, Outpatient Hospital Non-Ambulatory Surgery, and Outpatient Hospital Ambulatory Surgery. For questions related to this information, as it pertains to FFS Medicaid claims processing, please contact Molina Medicaid Solutions Provider Services at (800) 473-2783 or (225) 924-5040.

Updates to Bayou Health-related systems and claims processing changes are plan specific and are the responsibility of each health plan. For questions regarding Bayou Health updates, please contact the appropriate health plan.
