

### **ATTENTION PRIMARY CARE PROVIDERS:**

You are invited to complete a survey regarding the transition of Behavioral Health services from the Louisiana Behavioral Health Partnerships to the Bayou Health, Louisiana's managed-care program for Medicaid. This transition means that Primary Care Physicians will now be able to bill Behavioral Health services for Medicaid patients.

Your confidential answers to this short survey will provide DHH Medicaid with the information to properly assist Primary Care Physicians in navigating through the Behavioral Health transition.

This important study is being conducted by Q2 Insights, a national research firm, on behalf of Louisiana Department of Health and Hospitals.

To complete the survey please click [here](#). We appreciate you taking the time to participate.
