

State of Louisiana
Louisiana Department of Health
Bureau of Health Services Financing

MEMORANDUM

DATE: July 12, 2024
TO: Louisiana Medicaid Pediatric Providers
FROM: Louisiana Medicaid
SUBJECT: Early Childhood Developmental Screening Survey Closes July 26, 2024

Louisiana's Bureau of Family Health (BFH) is seeking pediatric healthcare providers and clinic managers to participate in a short survey regarding developmental screenings, perinatal depression screenings, and follow-ups conducted during well-child visits for families with children (birth to age 3). **The [survey](#) takes between 10-15 minutes to complete and will be open until July 26, 2024.**

The BFH wants to identify resources needed to support providers and families in screening and follow-up services for children. As key decision-makers in the developmental health system, provider input will offer valuable insights into screening practices, challenges, and opportunities for collaboration related to the developmental health system in Louisiana.

Click [here](#) to access the survey, and share the [attached flyer](#) with other providers that offer healthcare services to children and families. Answers to the survey questions are anonymous and strictly confidential.

If you are interested in learning more about the initiative or the results of this survey, contact the Developmental Screening Initiative at DevScreen@la.gov.
