SECTION 47.5.1: PROCEDURE CODES**PAGE(S) 4**

For the most current reimbursement fees and a complete list of codes visit www.lamedicaid.com. In addition to the procedure codes listed above, EarlySteps providers must also add the appropriate procedure modifier. Both Type of Service (TOS) and Place of Service (POS) modifiers apply. Listed below is an explanation of the Types of Service found on this schedule. A combination of a Place of Service (POS) Code and a valid Procedure Modifier determine the Type of Service.

TOS 22 - For services rendered in the Natural Environment (Home & Community). "Community": Environment where children of same age with no disabilities or Special needs participate such as childcare centers, agencies, libraries, and other community settings.

POS/modifier combination must be one of these two choices:

- POS 12 (Home) and Procedure Modifier U8, or
- POS 99 (Other Place of Service) and Procedure Modifier U8

TOS 27 - For services rendered in a Special Purpose Facility/Inclusive Childcare: Childcare center, nursery schools, preschools with at least 50% with no disabilities or developmental delays.

POS/modifier combination must be:

- POS 99 and Procedure Modifier TJ

TOS 28 - For services rendered in a Center Based Special Purpose Facility: Center where only children with disabilities or developmental delays are served.

POS/modifier combination must be:

- POS 99 and Procedure Modifier SE

759 Denial Codes

The National Correct Coding Initiative (NCCI, also known as CCI) was implemented by Centers for Medicare and Medicaid Services (CMS) to promote national correct coding methodologies and to control improper coding leading to inappropriate payment. NCCI code pair edits are automated prepayment edits that prevent improper payment when certain codes are submitted together for covered services by a single provider.

Modifier 59 indicates that a procedure or service was distinct or independent from other services performed on the same day by the same provider (the LEA). Modifier 59 is used to identify procedures/services that are not normally reported together, but are appropriate under the circumstances. This may represent a different session or student encounter, a different type of therapy or procedure performed on the same day by the same provider (LEA).
