(See listing of numbers on attachment)**

Per Chisholm v Department of Health and Hospitals, it is required that the following language concerning services to persons under 21 and children with disabilities be published in this manual.

DEVELOPMENTAL DISABILITIES MEDICAID WAIVER SERVICES

To sign up for "waiver programs" that offer Medicaid and additional services to eligible persons (including those whose income may be too high for other Medicaid programs), ask to be added to the Developmentally Disabled (DD) Request for Services Registry (RFSR). The **New Opportunities Waiver (NOW)** and the **Children's Choice Waiver** both provide services in the home, instead of in an institution, to persons who have intellectual disabilities and/or other developmental disabilities. Both waivers cover Family Support, Center-Based Respite, Environmental Accessibility Modifications, and specialized medical equipment and supplies. In addition, **NOW** covers services to help individuals live alone in the community or to assist with employment, and professional and nursing services beyond those that Medicaid usually covers. The **Children's Choice Waiver** also includes Family Training. Children remain eligible for the Children's Choice Waiver until their nineteenth birthday, at which time they will be transferred to an appropriate Developmentally Disabled (DD) Waiver.

The **Supports Waiver** provides specific, activity focused services rather than continuous custodial care. This waiver offers Supported Employment, Day Habilitation, Pre-Vocational Services, Respite, Habilitation and the Personal Emergency Response System. The **Residential Options Waiver (ROW)** is only appropriate for those individuals whose health and welfare can be assured via the support plan with a cost limit based on their level of support need. This waiver offers Community Living Supports, Companion Care, Host Home, Shared Living, Environmental Modifications, Assistive Technology, Center Based Respite, Nursing, Dental, Professional, Transportation-Community Access, Supported Employment, Pre-Vocational Services and Day Habilitation.

These checkups include a health history; physical exam; immunizations; laboratory tests, including lead blood level assessment; vision and hearing checks; and dental services. They are available both on a regular basis, and whenever additional health treatment or services are needed. EPSDT screens may help to find problems, which need other health treatment or additional services. **Children under 21 are entitled to receive all medically necessary health care, diagnostic services, and treatment and other measures covered by Medicaid to correct or improve physical or mental conditions. This includes a wide range of services not covered by Medicaid for beneficiaries over the age of 21.**

PCS do not include medical tasks such as medication administration, tracheostomy care, feeding tubes or catheters. The Medicaid Home Health Program or Extended Home Health Program covers those medical services. PCS must be ordered by a physician. The PCS provider must request approval for the service from Medicaid.

EXTENDED SKILLED NURSING SERVICES

Children and youth may be eligible to receive skilled nursing services in the home. These services are provided by a home health agency. A physician must order this service. Once ordered by a physician, the home health agency must request approval for the service from Medicaid.

PHYSICAL THERAPY, OCCUPATIONAL THERAPY, SPEECH THERAPY and AUDIOLOGY SERVICES

If a child or youth wants rehabilitation services such as Physical, Occupational, or Speech Therapy, or Audiology Service; these services can be provided at school, in an early intervention center, in an outpatient facility, in a rehabilitation center, at home, or in a combination of settings, depending on the child's needs. For Medicaid to cover these services at school (ages 3 to 21), or early intervention centers and EarlySteps (ages 0 to 3), they must be part of the Individualized Education Program (IEP) or Individualized Family Service Plan (IFSP). For Medicaid to cover the services through an outpatient facility, rehabilitation center, or home health, they must be ordered by a physician and be prior-authorized by Medicaid.
