\*\*If recipient is approved for *full days* of PDHC services, Procedure Code T 1026 will be automatically generated with the prior authorization, for a percentage of the number of days approved for T1025. This is to be used on days when the child cannot attend for the *full day* so that providers can bill for the actual *service hours of 4 hours or less*. These two procedures codes cannot be billed for the same day.
