
CHAPTER 5: PROFESSIONAL SERVICES

SECTION 5.1: COVERED SERVICES

PAGE(S) 2

Adjunct Services

Louisiana Medicaid's adjunct services policy is intended to facilitate recipient access to services during non-typical hours primarily to reduce the inappropriate use of the hospital emergency department. The reimbursement for the adjunct codes is intended to assist with coverage of the additional administrative costs associated with staffing during these times. The intent is not for providers to alter their existing business hours for the purpose of maximizing reimbursement.

The Louisiana Medicaid Program provides reimbursement for select adjunct services. These *Current Procedural Terminology* (CPT) adjunct codes are reimbursed in addition to the reimbursement for most outpatient evaluation and management (E/M) services when the services are rendered in settings other than hospital emergency departments during the hours of:

- Monday through Friday between 5 p.m. and 8 a.m.(when outside of regular office hours),
- Weekends (12 a.m. Saturday through midnight on Sunday), or
- State/Governor proclaimed legal holidays (12 a.m. through midnight).

Only one of the adjunct codes may be submitted by a billing provider per day per recipient. Providers should select the adjunct procedure code that most accurately reflects the situation on a particular date. These adjunct codes are never reported alone, but rather in addition to another code or codes describing the service related to that recipient's visit or encounter. The following examples illustrate the appropriate use of adjunct procedure codes based on the situation described.

- If the existing office hours are Monday through Friday from 8 a.m. to 5 p.m., and the physician treats the recipient in the office at 7 p.m., then the provider may report the appropriate basic service (E/M visit code) **and** adjunct code.
- If the existing office hours are Monday through Friday from 8:30 a.m. to 6:30 p.m., and the physician treats the recipient in the office at 6 p.m., then the provider may not report the adjunct code.
- If a recipient is seen in the office on Saturday during existing office hours, then the provider may report the appropriate basic service (E/M visit code) **and** adjunct code.

Documentation in the medical record relative to this reimbursement must include the time the services were rendered. Should there be a post payment review of claims, providers may also be

asked to submit documentation regarding the existing office hours during the timeframe being reviewed.

Reimbursement

The reimbursement for adjunct services is based on the following current CPT codes:

- 99050 (Services...at times other than regularly scheduled office hours...) or
- 99051 (Services ...at regularly scheduled evening, weekend, or holiday hours...).

When used, these procedure codes must be submitted with the code(s) for the associated evaluation and management services on that date.

Providers should refer to the fee schedule on the Medicaid website for reimbursement information relative to these codes. (See Appendix A for information on how to access the fee schedule) Providers are instructed to bill usual and customary charges.

NOTE: Rural Health Clinic and Federally Qualified Health Center providers should refer to policies in the manual specific to these providers.
