Provider participation in the Louisiana Medicaid program is voluntary. In order to participate in the Medicaid program, a provider must:

2. Agree to abide by all applicable rules and regulations established by the Centers for Medicare and Medicaid Services (CMS), LDH, and other state agencies; and
3. Comply with all the terms and conditions for Medicaid enrollment.

Providers must attend all mandated meetings and training sessions as directed by the Office for Citizens with Developmental Disabilities (OCDD) or the local governing entity (LGE) as a condition of enrollment and continued participation as a waiver provider. A provider enrollment packet must be completed for each LDH administrative region in which the agency will provide services. Providers will not be added to the Freedom of Choice (FOC) list of available providers until they have completed the home and community-based services (HCBS) training related to compliance with Louisiana Administrative Code (LAC) Title XXI Chapter 9. Provider Requirements for participation in the waiver programs mandate that the provider has been issued a Medicaid provider number.

Providers must participate in the initial trainings for prior authorization and data collection, as well as any training provided on changes in the system. Initial training is provided at no cost to the agency. Any repeat training must be paid for by the requesting agency.

CHAPTER 43: SUPPORTS WAIVER

SECTION 43.7: PROVIDER REQUIREMENTS

PAGE(S) 18

Providers must have available computer equipment, software, and internet connectivity necessary to participate in trainings, prior authorization (PA), data collection, and electronic visit verification (EVV).

It is the provider's responsibility to ensure that the use of contractors, including the use of independent contractors, complies with all state and federal laws, rules and/or regulations, including those regarding LAC Title XXI Chapter 9. Provider Requirements and those enforced by the United States Department of Labor.

All residential providers must maintain a toll-free telephone line with 24-hour accessibility manned by either a staff member or an answering service. This toll-free number must be given to beneficiaries at either intake or the first meeting.

Brochures providing information on the agency's experience must include the agency's toll-free number along with the OCDD's toll-free information number. OCDD must approve all brochures prior to use.

Providers must develop a Quality Improvement and Self-Assessment Plan. This is a document completed by the provider describing the procedures that are used, and the evidence that is presented, to demonstrate compliance with program requirements. The first self-assessment is due six (6) months after approval of the Quality Improvement Plan (QIP), and annually thereafter.

The QIP must be submitted for approval within sixty (60) days after the training is provided by LDH.

Providers must be certified for a period of one (1) year. Re-certification must be completed no less than sixty (60) days prior to the expiration of the certification period.

The agency must not be excluded from participation in Louisiana Medicaid as an entity as evidenced by an open exclusion on the Louisiana State Adverse Actions database, the Office of Inspector General's (OIG) national exclusions database, or the federal System for Award Management (SAM) database. The agency also must not have an outstanding Medicaid program audit exception or other unresolved financial liability owed to the state.

Changes in the following areas are to be reported in writing to the LDH, Health Standards Section (HSS), to OCDD, and to the fiscal intermediary's Provider Enrollment Section in at least ten (10) days prior to any change:

1. Ownership;

PAGE(S) 18

4. Telephone number; and/or
5. Account information affecting electronic funds transfer (EFT).

The provider must complete a new provider enrollment packet when a change in ownership of five percent (5%) to fifty percent (50%) of the controlling interest occurs, but the provider may continue serving beneficiaries. When fifty-one percent (51%) or more of the controlling interest is transferred, a complete re-certification process must occur, and the agency shall not continue serving beneficiaries until the re-certification process is complete. Beneficiaries should be offered a new freedom of choice when this occurs.

Waiver services are to be provided only to persons who are waiver beneficiaries and in strict accordance with the provisions of the approved plan of care (POC) and home and community based services (HCBS) guidance.

Providers may not refuse to serve any waiver beneficiary that chooses their agency unless there is documentation to support an inability to meet the individual's health, safety, and welfare needs, or all previous efforts to provide services and supports have failed and there remains no option but to refuse services. Such refusal to serve an individual must be made in writing by the provider and include a detailed explanation as to why the provider is unable to serve the individual. Written notification must be submitted to the LGE. Providers who contract with other entities to provide waiver services must maintain copies of such contracts signed by both agencies. Such contracts must state that the subcontractor may not refuse to serve any waiver beneficiary referred to it by the enrolled direct service provider agency.

The beneficiary's provider and support coordination agency (SCA) must have a written working agreement that includes the following:

1. Written notification of the time frames for POC planning meetings;
2. Timely notification of meeting dates and times to allow for provider participation, which includes all providers who are providing a service on the POC;

POC Provider Documents

The direct service provider must complete the provider attachments that are a part of the POC, to include all waiver services that the agency provides to the beneficiary based on the beneficiary's identified POC goals and other supports required.

The provider documents in the POC must be person-centered, focused on the beneficiary's desired outcomes, and include the following elements:

1. Specific goals matching the goals outlined in the beneficiary's approved POC;

CHAPTER 43: SUPPORTS WAIVER

SECTION 43.7: PROVIDER REQUIREMENTS

PAGE(S) 18

The POC provider documents must be reviewed and updated, as necessary, to comply with the specified goals, objectives, and timelines stated in the beneficiary's approved POC or when changes are necessary based on beneficiary needs.

Back-up Planning

Direct service providers are responsible for providing all necessary staff to fulfill the health and welfare needs of the beneficiary when paid supports are scheduled to be provided. This includes during times when the scheduled direct service worker is absent or is unavailable or unable to work for any reason.

All direct service providers are required to develop an individualized back-up plan for each beneficiary that includes detailed strategies and person-specific information that addresses the specialized care and supports needed by the beneficiary.

Direct service providers are required to:

1. Have policies in place which outline the protocols that the agency has established to ensure that back-up direct service workers are readily available;
2. Ensure that lines of communication and chain of command procedures have been established; and
3. Have procedures for dissemination of the back-up plan information to beneficiaries, their authorized representatives, and their support coordinators.

Protocols must also describe how and when the direct support staff will be trained in the care needed by the beneficiary. This training must occur prior to any direct support staff member being solely responsible for a beneficiary.

CHAPTER 43: SUPPORTS WAIVER

SECTION 43.7: PROVIDER REQUIREMENTS

PAGE(S) 18

Back-up plans must be updated as changes occur and, at a minimum, on an annual basis to ensure that the information is kept current and applicable to the beneficiary's needs. The back-up plan must be submitted to the beneficiary's support coordinator in a timely manner to be included as a component of the beneficiary's initial and annual POC.

Direct service providers may not use the beneficiary's informal support system as a means of meeting the agency's individualized back-up plan and/or emergency evacuation response plan requirements without documented consent of the informal support system. The beneficiary's family members and others identified in the beneficiary's circle of support may elect to provide back-up, but this does not exempt the provider from the requirement of providing the necessary staff for back-up purposes when paid supports are scheduled.

Emergency Evacuation Planning

Emergency evacuation plans must be developed in addition to the beneficiary's individualized back-up plan. Providers must have an emergency evacuation plan that specifies in detail how the direct service provider will respond to potential emergency situations such as fires, hurricanes, tropical storms, hazardous material release, flash flooding, ice storms, and terrorist attacks.

The emergency evacuation plan must be person-specific and include at a minimum the following components:

1. Individualized risk assessment of potential health emergencies;
2. A detailed plan to address the beneficiary's individualized evacuation needs, including a review of the beneficiary's individualized back-up plan, during geographical and natural disaster emergencies and all other potential emergency conditions;
3. Policies and procedures outlining the agency's implementation of emergency evacuation plans and the coordination of these plans with the local Office of Emergency Preparedness and Homeland Security;
4. Establishment of effective lines of communication and chain of command procedures;
5. Establishment of procedures for the dissemination of the emergency evacuation plan to beneficiaries and support coordinators; and

CHAPTER 43: SUPPORTS WAIVER

SECTION 43.7: PROVIDER REQUIREMENTS

PAGE(S) 18

6. Protocols outlining how and when direct service workers and beneficiaries will be trained in the implementation of the emergency evacuation plan and post-emergency procedures.

Training for direct service workers and surety of competency must occur prior to the worker being solely responsible for the support of the beneficiary.

The beneficiary must be provided with regular, planned opportunities to practice the emergency evacuation response plan.

OCDD, support coordination agencies, and direct service provider agencies are responsible for following the established emergency protocol before, during, and after hurricanes or other natural disasters or events as outlined in the “Emergency Protocol for Tracking Location Before, During, and After Hurricanes” document found in the OCDD Guidelines for Support Planning manual. LRS does not fund group employment, only individual employment. Therefore, if an individual is seeking group employment, this does not apply.

The employment specialist must possess a current certification from an accepted Supported Employment training program and the continuing education hours required (20 every two years). The service provider must adhere to the following requirements in order to provide transportation to beneficiaries:
