

## **Mother's Medicaid Number Required for Initial Precert of Legacy Newborns**

- In order to begin the Precert process, Initial newborn requests submitted to Legacy Medicaid will require the mother's Medicaid number to be included on the PCFO1 form.
- The 13 digit Medicaid number area on the PCFO1 should remain as all zeros until the baby's Medicaid number is assigned. If submitting electronically through ePrecert, the mother's number should be typed in the text box area.
- These requests will be rejected if the provider fails to provide this information or if the mother is verified as having Bayou Health Plan coverage on the day of admit.
- Effective for requests submitted on or after 12/14/2012
